FRANK J. FERRARO

TOP DOCTOR, FRANK J. FERRARO, MD IS A PERENNIAL TOP DOC-HONOREE IN SEVERAL PUBLICATIONS.

The dramatic transformations in appearance that Dr. Ferraro has achieved for his patients are the result of experience and expertise acquired throughout his 23 years of practice creating cosmetic distinction.

The board-certified Dr. Ferraro said he was attracted to his specialty because it was the most diversified. “It’s about assisting patients to achieve their goals,” he added. To that end, Dr. Ferraro performs all aspects of cosmetic and aesthetic procedures related to the breast, body and face. These include breast augmentation, breast lift, breast reduction, body liposuction and abdominoplasty, as well as face lifts, rhinoplasty and blepharoplasty.

Taking the utmost pride in his work, Dr. Ferraro is continually reviewing emerging advances in the field and embraces the latest technology from invasive treatments to minor in-office procedures to non-surgical therapies, including Exparel, which Dr. Ferraro injects during the abdominoplasty and breast augmentation procedures, to relieve pain and add to a quicker recovery. He specializes in the beautification of the body through an artful approach and presents today’s many options to help patients make cosmetic choices based on the very best practices available for elegant natural results.

Dr. Ferraro said another aspect of his practice is to provide unparalleled care and service.

“We speak with our patients twice prior to the procedure for separate one-hour consultations,” he said. “We describe all their options and all the details of the surgery. Our patients love their results as shown by our many 5-star Google reviews.”

He added, “My practice is all about obtaining natural results in a safe, reproducible way, paying close attention to my patients’ goals. I use that approach to deliver care to every patient and it is an honor to serve those who put their trust in me. Like many other aspects of science and medicine, aesthetic and cosmetic surgery is a unique specialty but, more so, because it blends form, function and artistic beauty exclusive to the individual. Our goal is to bring together evolving technological advances with an artistic balance so that each patient achieves individualized cosmetic excellence.”

Dr. Ferraro received his medical degree at the University of Medicine and Dentistry of New Jersey (UMDNJ) and is board-certified and fellowship-trained at Duke University Medical Center. Patients have surgery in the comfort and privacy of his state-of-the-art surgical centers in Paramus and Mahwah with board-certified anesthesiologists on staff.

Dr. Ferraro has co-authored more than 15 different publications concerning various plastic-surgery topics, and has given numerous presentations to well-known medical societies. He is a member of the American Society of Plastic Surgeons, the American Society of Aesthetic Plastic Surgery, the New Jersey Society of Plastic Surgeons and the New York Regional Society of Plastic and Reconstructive Surgeons.

To best serve his patients, Dr. Ferraro has affiliations with many area hospitals including The Valley Hospital in Ridgewood, SurgiCare Surgical Associates of Mahwah, New Century Spine and Outpatient Surgical Center, Saint Barnabas Medical Center in Livingston, Hackensack University Medical Center and Clara Maass Medical Center in Belleville.
